

## **Financial Advice**

At Empowered Pensions we do not put forward or advise on any investment options for Member Trustees.

There are many instances where regulated Financial Advice is necessary for Pension Scheme Trustees, whether that is advice for Investments or Pension Benefit, or whether it is simply to give guidance to members on what they should do in a particular situation.

Empowered Pensions believe that SSAS Members must consider and take advantage of this help when needed. We do not receive any inducements from any advice providers. We have built up a good working relationship with a number of FCA regulated Advice Practices, who we would recommend to clients seeking advice.

### **Advice practice**

Aria Private Clients

Pension Income Planning

Pensionworks

Sheards Wealth Management

### **Advisers website**
