

Peer to Peer lending Platforms

Empowered Pensions does not provide advice in relation to either Platforms that Member Trustees should use for Peer to Peer lending. Should Member Trustees need advice in this area then they should seek Independent Financial Advice from an FCA regulated adviser. Member Trustees should also be aware of the FCAs recent announcement relating to [‘Mini bonds’](#)

Not all Platform providers have set their business up to work with SSAS pension schemes. In addition some Platforms do not have business processes that recognise the role of the Scheme Administrator and how they are responsible for the compliance of the Scheme with HMRC rules. Empowered Pensions therefore complete regular research with Platforms to ensure that their operational procedures allow us to complete our role securely.

Our Scheme Members often use the following Platforms and we can confirm that they in turn conform to our operational requirements:

Blend Network
Crowd Property
Crowd With Us
HMW Lending
Lendswift
LoanPad
Property Crowd
Proplend
Shojin
Simple Crowd Funding

IMPORTANT NOTE:

[Download The Crowdfunding Platforms Report](#)

Anyone considering Peer-to-Peer lending or ‘Crowd funding’ should understand the specific risks of these investment mechanisms. The 12 page summary is a must read. It’s clearly presented, with lots of information and insights
